### FOOTNOTES:

1 (8 districts out of 128 total districts in Mozambique implementing a malaria elimination programme)
2 (14 districts out of 113 total districts in Zambia implementing a malaria elimination programme)
3 (29 districts of 63 total districts in Zimbabwe implementing a malaria elimination programme)
The Elimination 8 Initiative (E8) is a coalition of eight countries working across national borders to eliminate malaria in southern Africa by 2030. As the malaria elimination response arm of the Southern Africa Development Community (SADC), the E8 is pioneering an ambitious regional approach and driving collective action to end this deadly disease once and for all. Guided by the belief that countries are stronger when they work together, the E8 is building a model that will inform coordinated efforts in southern Africa and beyond.
